14,000 lb. capacity

SL-222
22,000 lb. capacity

SL-2418
24,000 lb. capacity

SL-330*
33,000 lb. capacity

Available in up to 65,000 lb. dump capacity *

One Chassis, Many Uses

Dump Bodies

- A full range of municipal and contractor bodies
- Light-duty general purpose bodies
- Medium- and heavy-duty municipal bodies
- Light weight, high strength hauler bodies
- Special material combinations for various applications

Designed with the Municipality in Mind

- Crossmemberless stainless steel in 304 or 201 for a clean design that will resist corrosion for the life of your truck
- Side and gate heights to meet special requirements
- Fold-down sides on small bodies available for ease of loading
- AR450 floor option available for rough duty applications

Many Standard Configurations

- A broad range of standard, reliable, proven designs provides a wide choice of competitive products
- Complete packages to meet your needs
- Bodies suited for 1 ton general use to tri-axle heavy hauler uses

Built to standards that have been tried and proven by municipalities, DOTs, and contractors for the long haul for the life of your truck.

J&J does more than just build dump bodies; they build them the way that you need with the features that you want for your specific applications.

Dump Bodies

- Custom built light, medium & heavy duty
- Steel, stainless steel & aluminum

Municipal Favorites

- Rugged corrosion resistant construction
- Up to three coal doors
- Manual, semi-automatic and automatic tarp systems
- Spreader plates for paving applications
- Grip Strut walkways and dirt shedder rubrails
- Manual or air controlled tailgate
- Low mount hoists
- Barn door gates for debris hauling
- Variety of full perimeter and safety lighting

Additional Specialty Bodies

- A full line of bodies for use with hooklift hoists
- Custom built flatbeds and equipment hauling bodies
- Truck cranes for service and other uses

Available in: Central and Eastern Pennsylvania, New Jersey

CUSTOM DUMP BODIES

- Custom aluminum dump bodies for light-, medium- or heavy-duty chassis
- Hardox flooring available
- Built in southwestern Pennsylvania

TRUCK UPFIT ACCESSORIES

- Toolboxes & Mounting Brackets
- Truck Accessories / Equipment
- Truck & Trailer Hardware
- Cutting Edges: Steel, Rubber & Polymer
- Mudflaps
- Hydraulics
- Pneumatics
- Cables & Controls
- Driveline Components
- Electrical & Lighting
- Manual or Automatic Tarp Systems
- Dump Body Hardware

Reversible Snow Plows

- Built-in deflector
- Dual compression or cannon trip
- Swivel bar

Trip-Edge Snow Plows

- Sectional or full trip edge
- Integral shield
- Swivel bar

One-Way Snow Plows

- Fixed or power angle
- Built-in baffle
- Moldboard or trip edge
- Swivel bar

Undertailgate Spreaders

- Mild or stainless Steel
- Urethane spinners
- 9-inch auger option

Hopper Spreaders

- Mild or stainless Steel
- Chain or auger fed
- Hydraulic driven
- Pre-wet system options

Custom Swivel Bars Available*

Reversible Snow Plows

- Moldboard trip
- Slotted trip
- Trip edge

Express Way Snow Plows

One-Way Snow Plows

- Trip blade
- Slotted trip

Spreaders

- Stainless steel

Hitches

- Standard
- Hustling
- Pin and loop
- Rapid push bar

Wings & Wing Systems

- Rear-mount direct hydraulic
- Front-mount direct hydraulic
- Cable benching

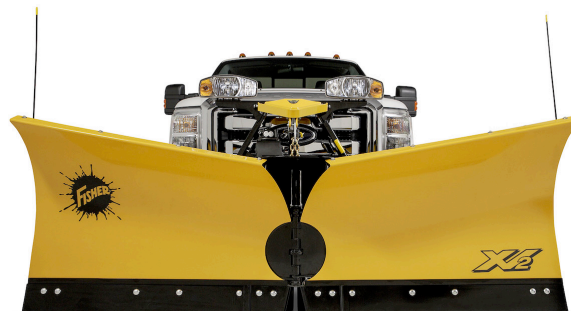

Moldboard Trip Straight Plows & V-Plows

- Prodigy multi-position wing plow
- Wide-out adjustable wing plow

Trip Edge Straight & V-Plow

Steel & stainless steel

Stainless Steel Tailgate Spreaders

- Standard discharge direct drive
- Standard discharge 5:1 gearbox drive
- Heavy duty 9" auger direct drive
- Center and dual spinner units available
- Replacement tailgate spreader

SaltDogg 3.5-5 Cubic Yard Hydraulic Conveyor Chain Spreader

Gives contractors and municipalities a heavy duty, durable spreader that is ready for use with a truck's existing central hydraulic system. The 96 in., 108 in., or 120 in. hoppers are designed for dump bodies and flatbeds with a minimum 15,000 lb GVW (gross vehicle weight) chassis. It works with bulk salt, bulk sand, or a 50/50 salt/sand mix.

SaltDogg 1.5 Cubic Yard Electric Stainless Hopper Spreader

Ready for commercial use, the 6 ft. spreader can fit in the bed of a 1 ton truck and will work with bulk sand and a 50/50 sand/salt mix. Its electric-powered design offers quieter time-saving operation with no need for refueling or engine servicing. The spinner and conveyor are operated by a heavy duty in-cab controller with independent variable speeds.

***Large Configurations Available**

Model 1200 & Model 1800 Conveyors

- Available in 12- or 18-inch widths
- Improve your bottom line and give yourself the competitive edge that is so necessary in today's economy with the Hydraulic Truck Conveyor.
- The economical Hydraulic Truck Conveyor mounts quickly and easily on all standard dump boxes to efficiently deliver material like sand, gravel, or hot sphalt where you want them, when you want them, without expensive hand labor.
- Operating the Hydraulic Truck Conveyor is a simple one-person job that can be handled from the truck cab.
- The Hydraulic Truck Conveyor discharges from either side, making asphalt patching, highway shouldering, ditch filling, sandbag filling, and road sanding fast and easy.

PA MUNICIPAL, INC.
BUILDING A BETTER TOMORROW TOGETHER

Here at PA Municipal, the customer always comes first. We strive to know our customers' needs, so we can better support their operations and daily activities. We have made many changes over the years, which we believe shows our commitment specifically to the support side of the business. We look forward to supporting you, and thank you for choosing us.

UTILITY BODIES

Flatbed Body

Standard aluminum service bodies
Standard flatbed bodies
Skirted flatbed bodies
Welder bodies
Contractor bodies
Dumping and non-dumping bodies
Enclosed service bodies

Enclosed Service Body

ANTI-ICING EQUIPMENT

Brine Solution Production System

- 3,600-5,000-gallon/hour manufacturing capability

Anti-Sloshing Equipment/Tank Tamers Application Equipment

- Turn-Key System
200, 300, 400 & 500 gallon capacities
- Frame-Mount
35, 65 & 100 gallon capacities
Hydraulic & electric pump drive
- Slide-In
735 - 3400 gallon capacity
1, 2 or 3 lane spray booms
- V-Box Liquid Application Tanks
Up to 300 gallon capacity

Application Equipment Controls

- Optimizes application rates of liquid chemical solutions
- Optimizes material costs and use effectiveness

Liquid Transfer System

- Single & three phase, 115 Volt & 230 volt power supplies
- 90 & 165 gallon per minute systems

Vertical Storage Tanks

- Liquid Solutions
Up to 10,500 gallon capacity
Single or double wall construction

Truck-Mounted Application Tanks

- Behind the cab tanks: 80 & 120 gallon
- Tailgate series: 75, 100 & 150 gallon

We provide a full range of hydraulic systems designed with components to meet your needs. Our packages include:

Belt Driven Systems

- Gear pump to provide a full range of functions
- Manual cable controls for simple, cost effective operation
- Electronically controlled valves with rocker or joystick controllers for ease of operation
- Manual material spreader control valves
- Ground-oriented material spreader control valves

Transmission and Front Crankshaft Driven Systems

- Single or tandem gear pumps and load sensing pumps
- Manual cable, air, or electronically controlled valves

Material Spreader Control Valves

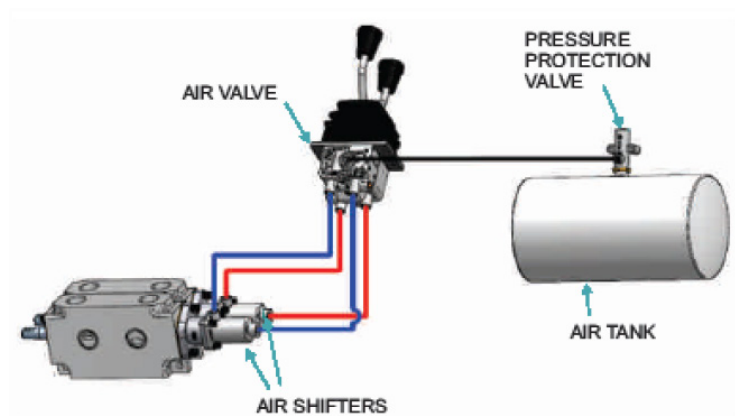

- Ground-oriented material spreader control valves
- Combination of manual and electronic sections available

Valves

- Manual, air, or electronically controlled as well as combinations of manual or air plus electronic

Reservoirs

- Steel, aluminum, or stainless steel reservoirs to match system requirements
- Combination reservoir and valve enclosures

IMAGINE – The features and capabilities of a larger, more complicated snowplow and spreader control system packed into an affordable, compact solution. That's the Control Pro 6. It affords unparalleled simplicity with robust features like ground speed enabled spreader controls. Finally, a tool that fits your needs with a simple, intuitive interface.

- Straight, Wing and V-Plow options
- Automatic truck speed proportional or manual spreader operation
- Load sense hydraulics for efficient, consistent operation, allowing multiple operations simultaneously
- Auto-pump disengagement at vehicle shut-down to prevent engine strain at start
- Compatible with gear pump or load sense hydraulic systems
- Use with our manifold, or set it up to work with yours
- All functions handled from one intuitive interface using solid state electronic control
- 2 joysticks control dump body and plow
- Controls for strobes, beacon, and work light
- All controls backlit with adjustable brightness
- Space-efficient package with adjustable pedestal to suit any driver
- Windows software to configure all hydraulic functions
- Ground speed to control pounds-per-mile, liquid and truck speed tracking
- Stores multiple calibrations for various materials and liquids
